Luxury Facial Steamer

the facial sauna with hot steam and cool mist

With its dual emissions of hot steam and cool mist, the Luxury Facial Steamer offers thorough skin care and takes action against the signs of ageing.

The result?

Cleansed, hydrated skin and a toned face.

What kind of steam? What are the benefits?

The benefits of hot steam and cool mist have been acknowledged as part of facial care for centuries. The combination of hot steam and cool mist helps to combat skin problems, courtesy of the benefits they both result in. The skin is then visibly clearer, free of toxins, cleansed and thoroughly hydrated.

The benefits of hot steam

- Opens the pores to cleanse impurities
- Hydrates deeply
- Promotes the absorption of care
- Reduces spots and blackheads

The benefits of cold steam

- Closes the pores
- Tones your skin
- Combats signs of ageing

In practice

As well as offering a choice between hot steam and cool mist, the Luxury Facial Steamer has a wide range of benefits in terms of giving yourself a full facial.

The magnifying mirror (x3) makes facial care easier by acting on the skin in minute detail.

The **100% stainless steel accessory kit** includes **five double-tipped instruments** to easily remove hard-to-eradicate imperfections such as blackheads, whiteheads and spots. It works on all skin types and is very easy to use.

The Luxury Facial Steamer is also equipped with a tank with a capacity of 300 mL, ensuring full autonomy during your facial. The water spout makes the device safe to use.

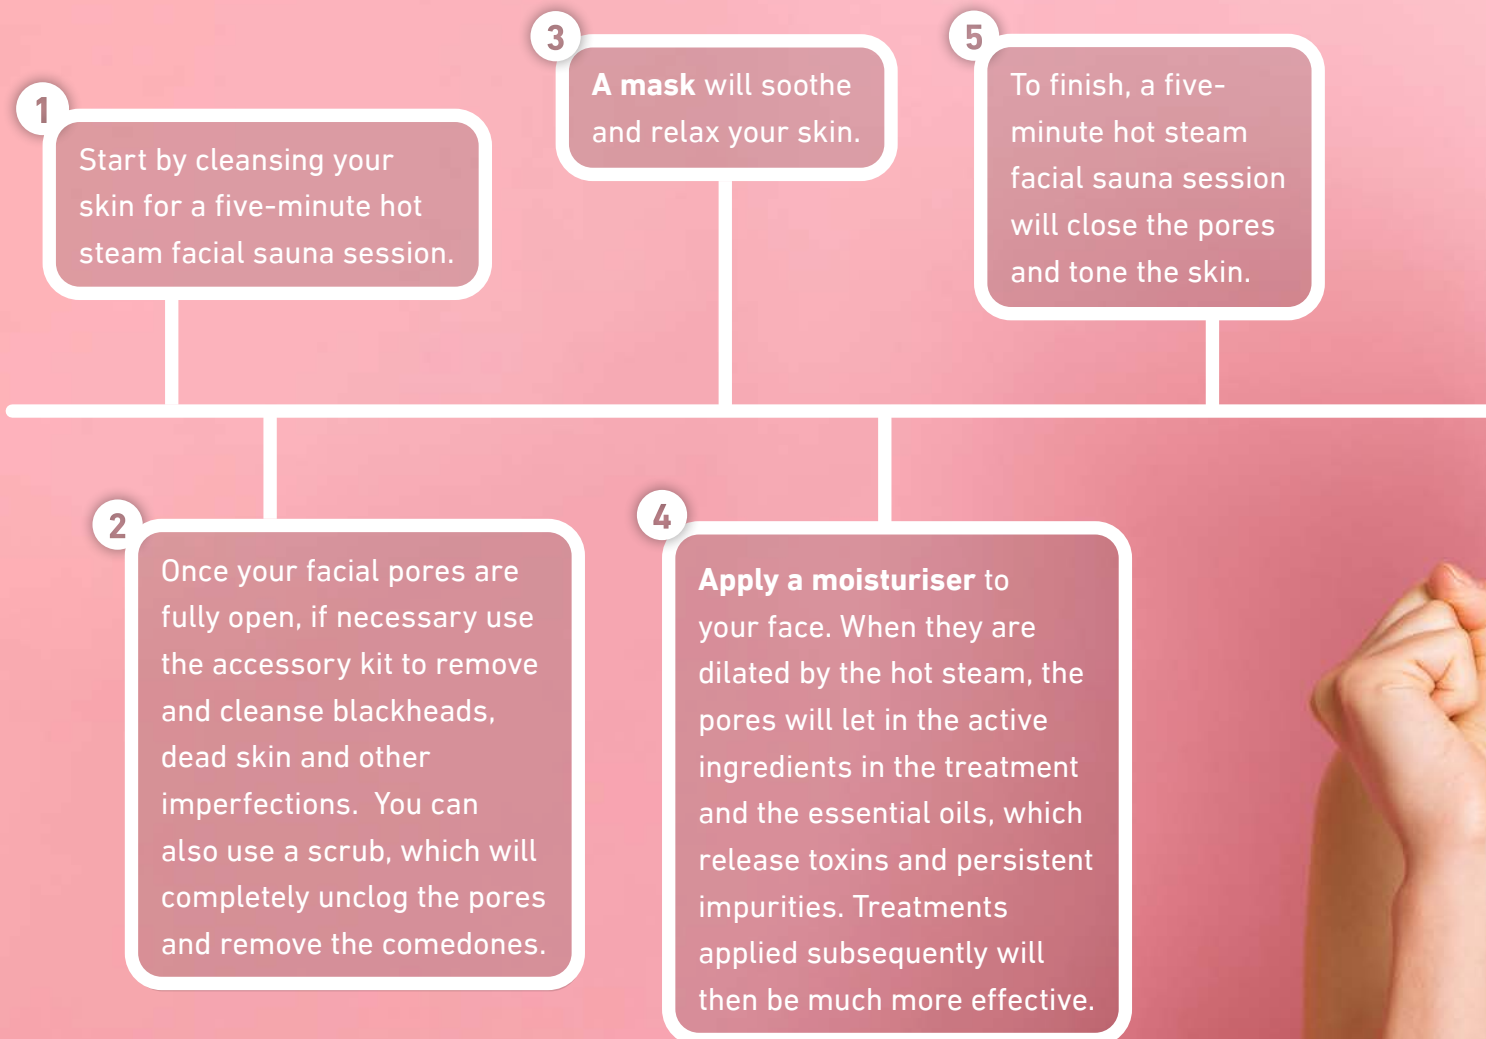

Compatible with essential oils

The Luxury Facial Steamer offers the option of scenting the steam or mist with essential oils or seeds, dried fruit or dried flowers. Depending on requirements, all you need to do is add the aromatic of your choice into the basket provided. The steam or mist emitted then takes on the benefits of the fruit, seeds, flowers or essential oils and simultaneously scents the face with a pleasant fragrance.

A customisable care routine

The effects will quickly become visible. Plumped, rehydrated and less uncomfortable, your facial skin will truly undergo a metamorphosis.
