Delight Mattress

MATTRESS WITH VIBRATION-BASED MASSAGE, SHIATSU AND ACUPRESSURE

A multifunctional and modular mattress

The Delight Mattress is a mattress that massages by means of **vibration, shiatsu and acupressure**. Its relaxing, stimulating or reinvigorating effect will reduce your muscular tension and fatigue.

Equipped with **ten vibrating motors** distributed throughout its body, the massage mattress offers **5 pre-programmed vibrating modes** as well as **3 vibration intensities**.

Its cushion is equipped with **2x2 shiatsu heads with two-way rotation to choose from**. To intensify the relaxing effect, a **heating function** is divided into **three zones**: two in the mattress, at back height, and the third in the shiatsu cushion.

All these functions can be programmed simultaneously or independently. In addition, the massage mattress is equipped with overheating protection and switches off automatically after 15 minutes of use.

The acupressure mat is inspired by **acupuncture benefits** and by **traditional Chinese medicine**. It is **great for dealing with back pains, muscle tension, fatigue, stress or even insomnia**.

The Delight Mattress offers **various possibilities that can be combined**, based on the **kind of massage you would like to receive**. All you need to do is lie down on its comfortable body, made from **soft materials**, close your eyes and enjoy!

The shiatsu cushion and the acupressure mat can easily be detached from the mattress and used separately. These two **detachable elements**, always handy to keep nearby, each offer a very different but equally beneficial massage.

A detachable cushion for a focused shiatsu massage

The detachable cushion allows other parts of your body, such as the shoulders, the back or the legs to receive the **shiatsu** massage. It specifically focuses on those areas with muscular tension **to enhance relaxation**.

Thanks to these **two integrated buttons**, it can work 100% independently while being very handy: choosing the **massage heads' direction of rotation can be done** with a single movement, just like **the activation of the heating functions**.

A flower mat with various benefits

You can either attach the acupressure mat to the mattress or use it separately to **stimulate the reflexology points on your back or on other parts of your body.**

It is **full of small flowers, each consisting of 26 spikes.** Once the body is on the mat gravity will ensure that these spikes exert uniform pressure on **the various reflexology points of the body and will stimulate the blood flow, lymph circulation and the release of endorphins.**
