Graphene Foot Warmer

FOOT WARMER

GRAPHENE HEATING

POLAR FLEECE

AUTONOMY

The Graphene Foot Warmer is the ideal companion for those who are sensitive to cold, offering comfort and warmth under all circumstances thanks to its multiple features and practical design.

3 heating intensities with Illuminated indicators

The Graphene Foot Warmer has three heating levels, easily adjustable with a single «OneTouch» button. The indicator lights make it possible to quickly know which level is activated:

- Blue: Lowest heating level
- Green: Intermediate heating level
- Red: Highest heating level

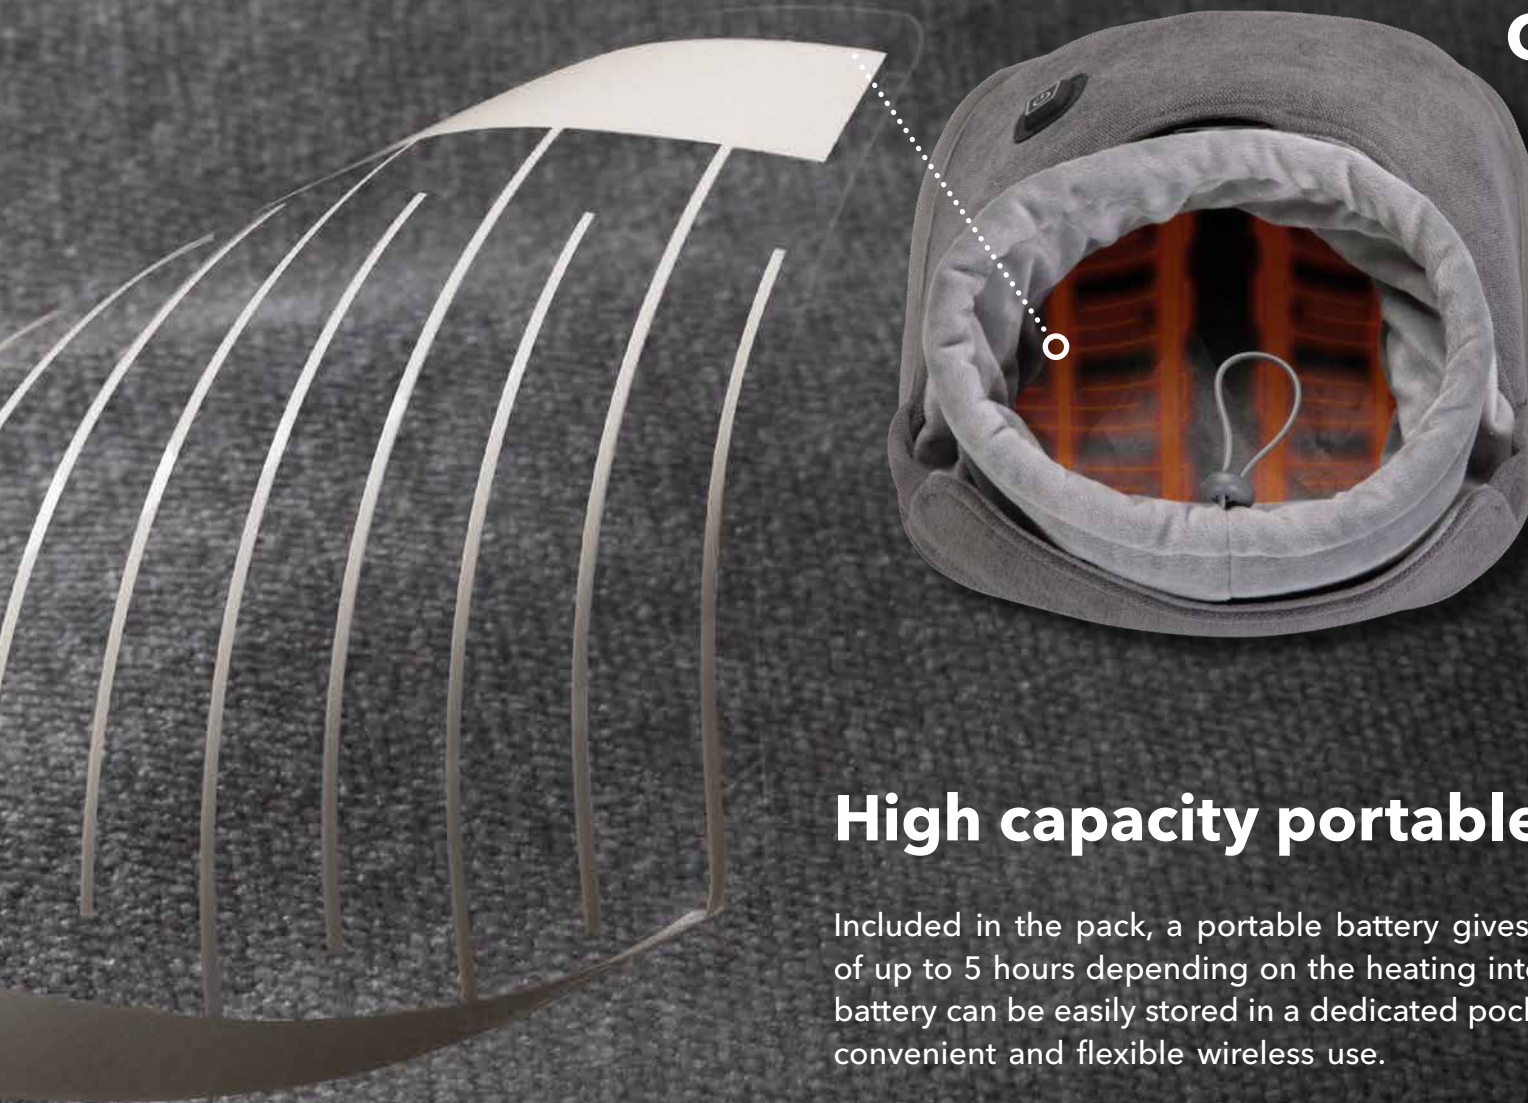

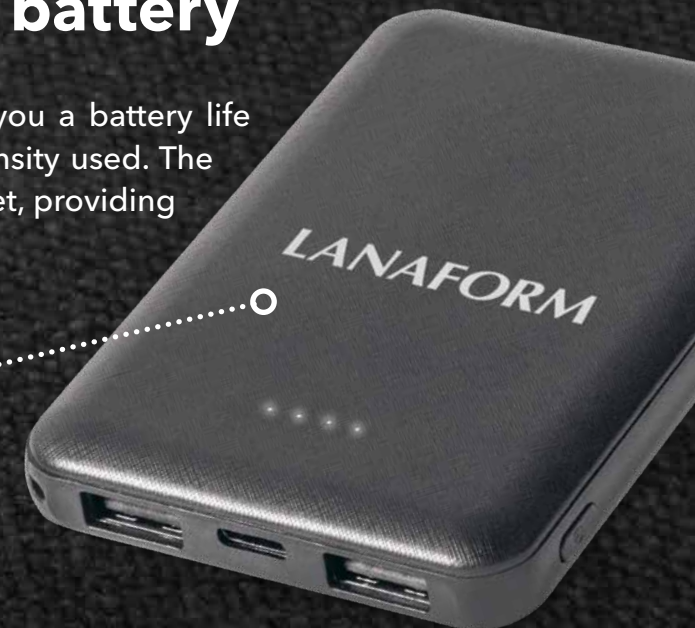

Graphene heating technology

Thanks to the ultra-thin graphene film, the foot warmer offers fast and constant heating. This advanced technology enables uniform heat distribution, ensuring optimal thermal comfort while maintaining low energy consumption.

High capacity portable battery

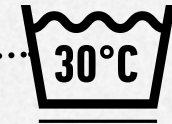

Included in the pack, a portable battery gives you a battery life of up to 5 hours depending on the heating intensity used. The battery can be easily stored in a dedicated pocket, providing convenient and flexible wireless use.

5000 mAh

Comfortable and easy to maintain materials

The ultra-soft fleece inner cover is removable and machine washable at 30°C, ensuring impeccable hygiene. The outside of the foot warmer is easy to clean with a damp sponge, ensuring quick and easy maintenance. In addition, a drawstring allows the cover to be perfectly adjusted to the feet and legs of users for optimum comfort.

Modern and portable design

With its modern design, the Graphene Foot Warmer integrates seamlessly into all interiors. With its portable battery, you can take it anywhere you go, whether it's at home, in the office or even on the go.
