## MANICURE & PEDICURE SET

6 ACCESSORIES

AUTONOMY  
90 MIN

TWO-WAY  
ROTARY

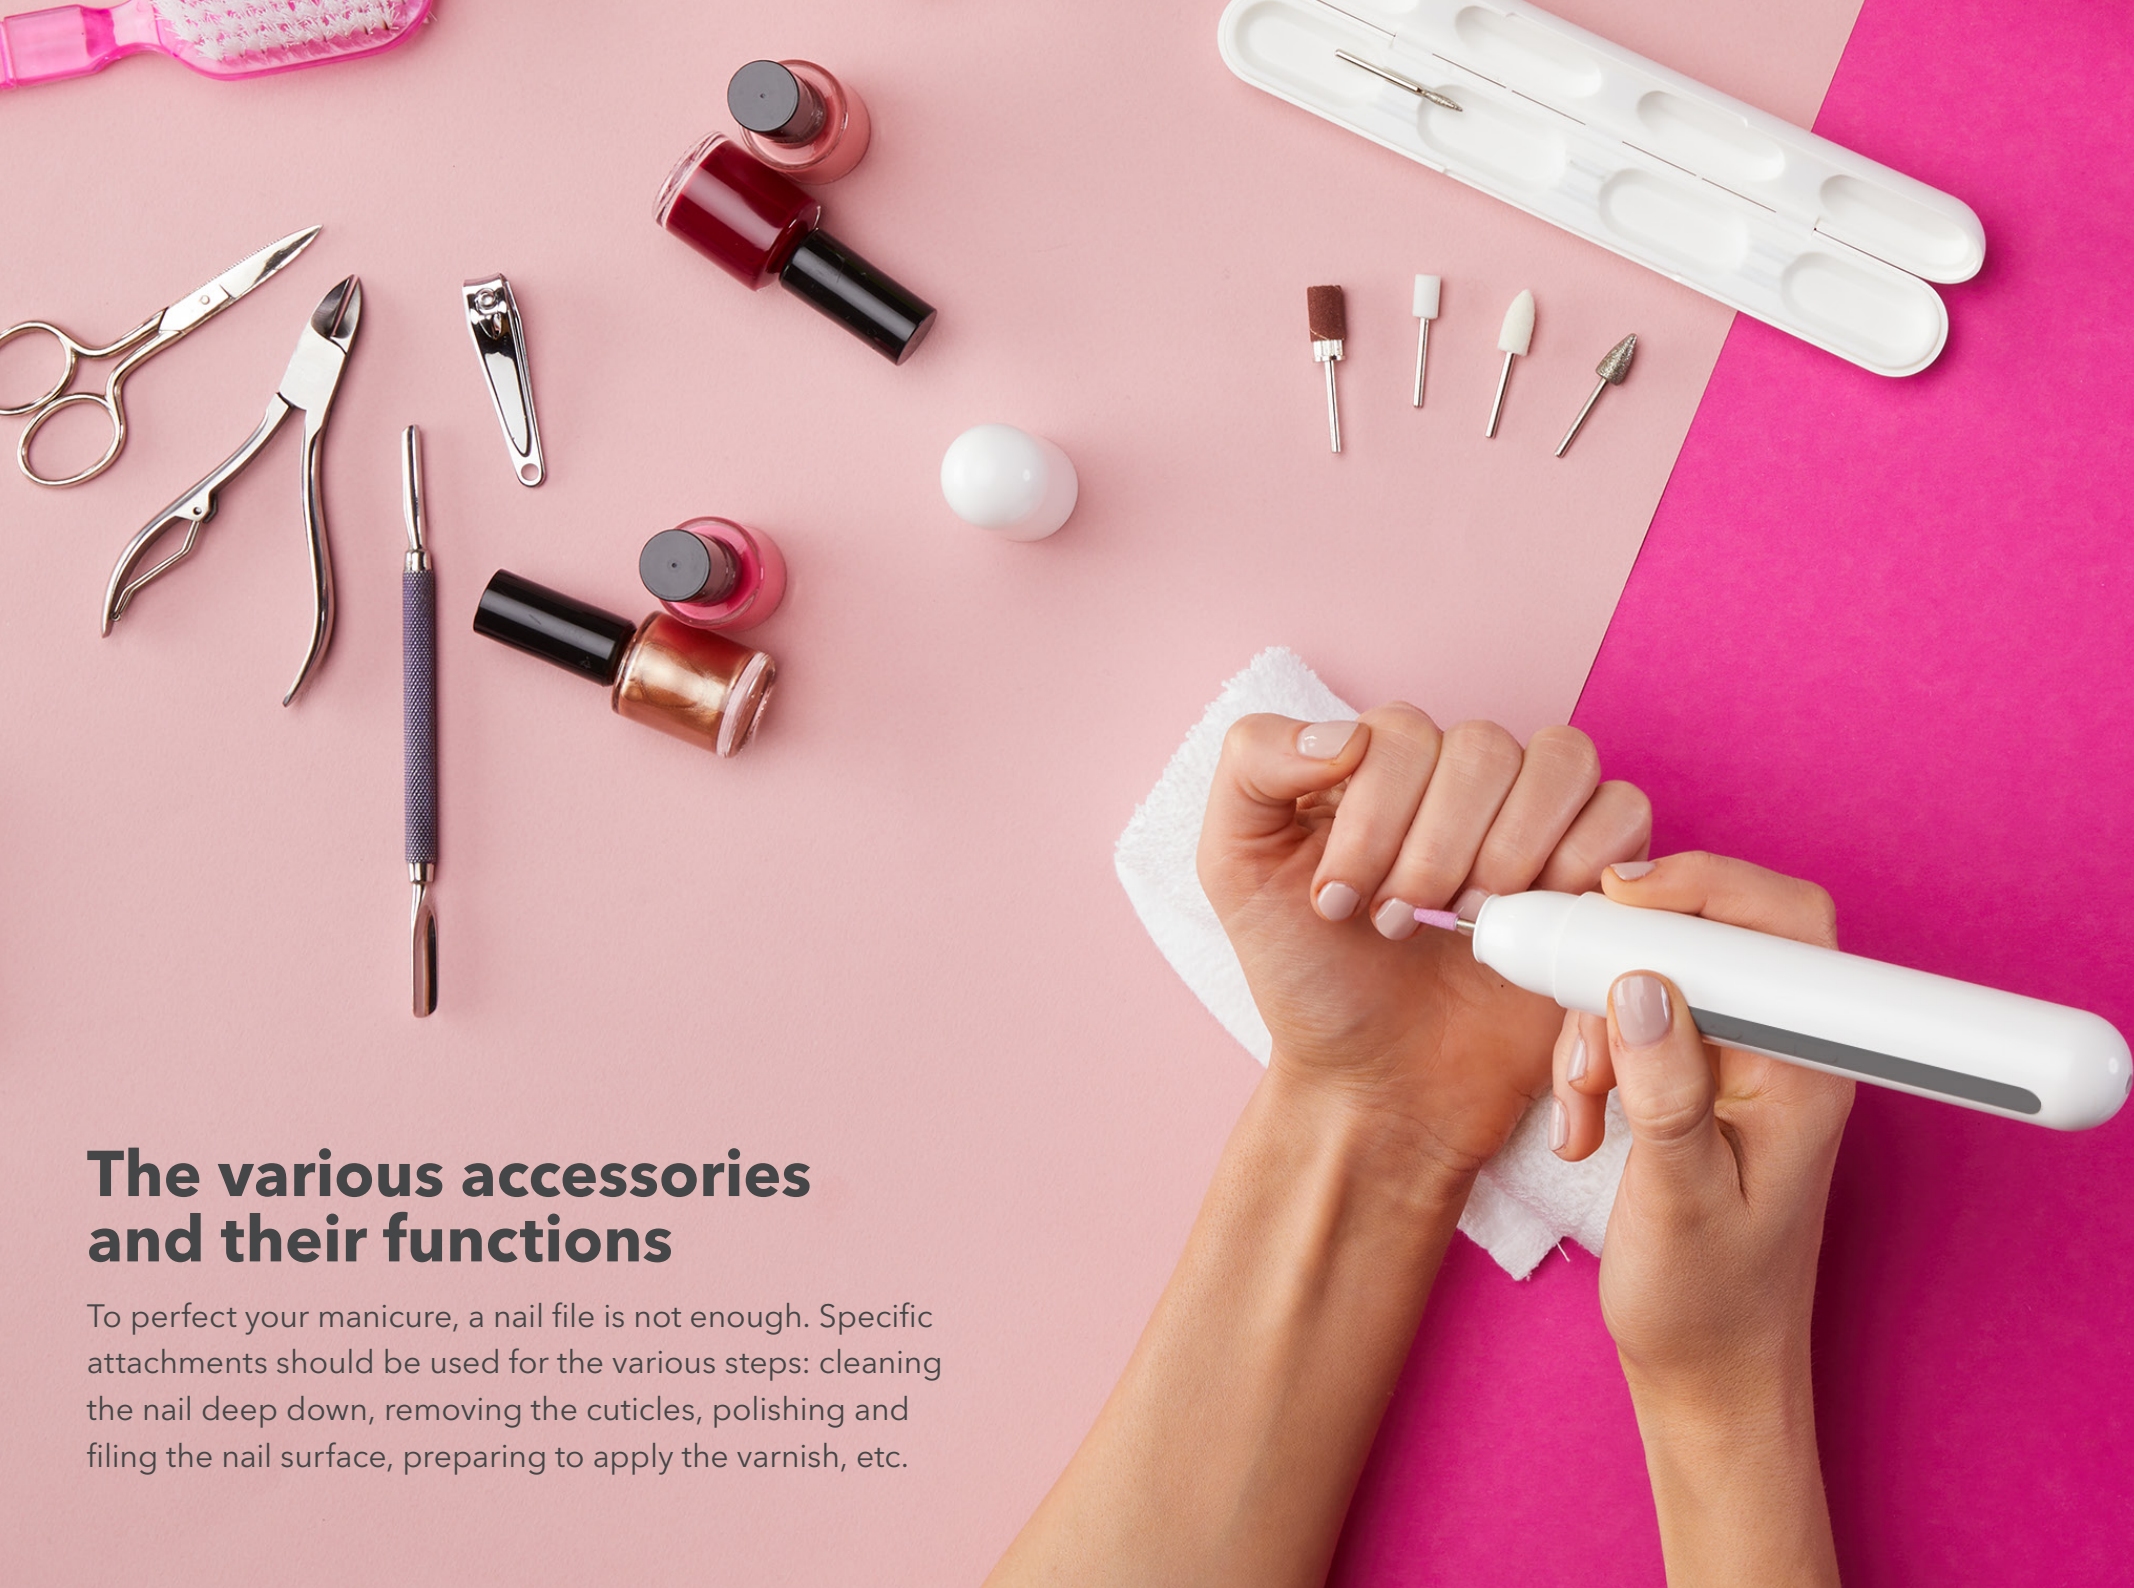

## Why use the Nail Pen manicure/pedicure set?

For genuine hand and foot care, the complete and portable Nail Pen manicure/pedicure set has all the interchangeable attachments you need to **clean, polish, file, shape** and **shine** your nails in just a few minutes.

In addition, the Nail Pen includes special attachments for removing rough skin from your hands and reducing calluses on your feet.

Its **reversible rotation** function facilitates movement and prevents cuticles from being pulled off.

Regular use of this product will beautify your hands and feet and help your nails to become **stronger** and less brittle.

## The various accessories and their functions

To perfect your manicure, a nail file is not enough. Specific attachments should be used for the various steps: cleaning the nail deep down, removing the cuticles, polishing and filing the nail surface, preparing to apply the varnish, etc.

### 1. Pointed bit:

- This cleans the natural nail on the sides and pushes the cuticles back gently, without damaging them.
- Use at low speed for precision work.
- It also releases ingrown nails.

### 2. Abrasive cone:

- This is intended to prepare the natural nail before varnishing.
- Helps remove cuticles, small areas of dead skin, etc.

### 3. Polishing cone:

- This polishes and files the surface of the nail.
- Slide it over the entire surface to buff the nail without harming it.

### 4. Felt cone:

- Polishes your nails for a perfect, shiny finish.
- This helps nail varnish application and enables it to hold for longer.
- If used regularly, it can make nails less brittle.

### 5. Cylindrical bit:

- Removal of dry skin, calluses and corns on the soles of the feet and heels.

### 6. Sanding band:

- This tip is used with abrasive bands.
- It is used to restore and refine modelling on false nails made from UV gel or acrylic resin.

# Take it with you everywhere

With its two small compact boxes, your set can accompany you during your holidays or even during your daily routine! Plug it into a USB port to recharge it and then you can use it wirelessly for 1.5 hours!
