Did you know ?

Your nails too may be dry and weak! Give them a little TLC with vegetable oil. All you have to do is apply a little to the surface of your nails with a cotton bud and wait for 10 minutes. Rinse off and you'll have strong, smooth nails again!

Advice

Having given your nails a manicure/pedicure, do not then immediately put on any nail polish. Do so the following day as this means that your nails can then be filed and cleaned. They will simply be even lovelier!

With its dual rotation direction, remove your split nails and gently take care of them using **2 speeds**.

Finally, your PERFECT NAIL manicure/pedicure set will be carefully stored and protected at all times in its **pouch**, so it will not be lost or broken at all.
