Silky Hair Brush

SOFT BRISTLE

ANTI-STATIC

IONS DIFFUSION

Bid farewell to bad hair days and hello to soft, smooth and manageable hair thanks to the negative ion diffusion.

Thanks to its practical ergonomic design, you can take your **SILKY HAIR BRUSH** with you anywhere and make sure that your hair is soft and shiny no matter what life throws at you. The ion technology will also eradicate frizz and static electricity in your hair. Its soft bristles are gentle to your hair and your scalp and will help you to style your hair in comfort, and can be cleaned easily thanks to the brush's detachable cushion.

Soft bristles :

To make sure you achieve an attractive hairstyle, all our bristles are smooth and are ball-tipped and suit every type of hair. You will see that brushing your hair will become something you enjoy, without any pain.

Detachable cushion :

With its removable fibre cushion, you will find it easy to clean your **SILKY HAIR BRUSH** in water. You will therefore be able to keep the fibres clean and you'll not make your hair unnecessarily greasy.

Static electricity present in your hair is the result of a fairly common phenomenon, particularly in dry weather.

Your **SILKY HAIR BRUSH** has the special feature of emitting negative ions that can counter the effects of static electricity in your hair. In fact, thanks to this diffusion, you can get rid of frizz and have soft and shiny hair again.

So to guarantee a fast-acting effect evenly distributed across all your hair, we have placed ion diffusers at the edge of the fibre cushion.

Compact design :

You'll fall for its compact design thanks to which you'll be able to take your brush with you anywhere, ensuring your hair looks immaculate under any circumstances.
