# 2-in-1 Shiatsu Comfort

HEATING AND SHIATSU MASSAGER

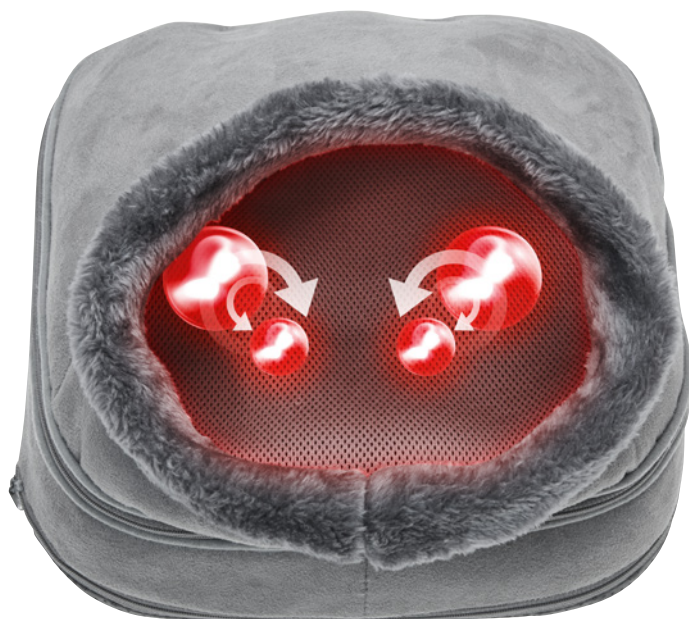

## Comfort your feet

Our feet, like our hands, are the first body parts to feel cold. In fact, as one of more extreme reactions of the body, our blood circulation diminishes. The flow of blood is reduced, less heat is produced and that is why many people have cold feet on a regular basis. **Massaging the arch of the foot** for a couple of minutes restarts the **microcirculation** and thus also the **heat** supply to the feet. Additionally, it provides them with **immediate and often well-deserved relaxation**.

The heating and massaging 2-in-1 Shiatsu Comfort cushion has all it takes to offer your feet the **comfort** they need. First of all, it provides a relaxing, **kneading massage** thanks to its **2 × 2 massage heads** that perform a pleasant circular movement, the direction and intensity of which can be adjusted. This massage automatically ends after 15 minutes, leaving your feet **relaxed and reheated**.

In addition, the massage heads diffuse a **soft and enveloping heat** that further deepens the warming and relaxing sensation. This heating function also has **two intensities** and operates continuously for one hour before switching off automatically.

## ... and to all parts of your body

This slipper-like cushion, in which your feet can slide right in, is **designed in a versatile manner** and can be transformed into a classic cushion in no time at all, easily positioned against the back, behind the shoulders, or under the thighs and calves.

Also, the 2-in-1 Shiatsu Comfort **can target multiple parts of the body**, which will result in a gradual relaxation of the tense muscles.

On top of that, the 2-in-1 Shiatsu Comfort is made of a pleasant, light and **breathable** mesh fabric. The detachable part can be cleaned in the washing machine.

## The all-in-one method

Whether a soothing heat or a relaxing massage, the 2-in-1 Shiatsu Comfort provides feet with everything their well-being needs. All you have to do is let yourself be pampered while resting or while at work.

What's more, with one simple movement it changes into a massage cushion for any tense body part. Something to always keep close!

Master Carton Dimensions  
50.2 × 33.0 × 33.0 cm

Master Carton Weight  
7.90 kg
