Cardiovascular diseases

Key figures

Cardiovascular diseases (CVDs) are the leading cause of death worldwide*, responsible for approximately 17.9 million deaths each year. In fact, they surpass cancer, respiratory diseases, and infectious diseases.

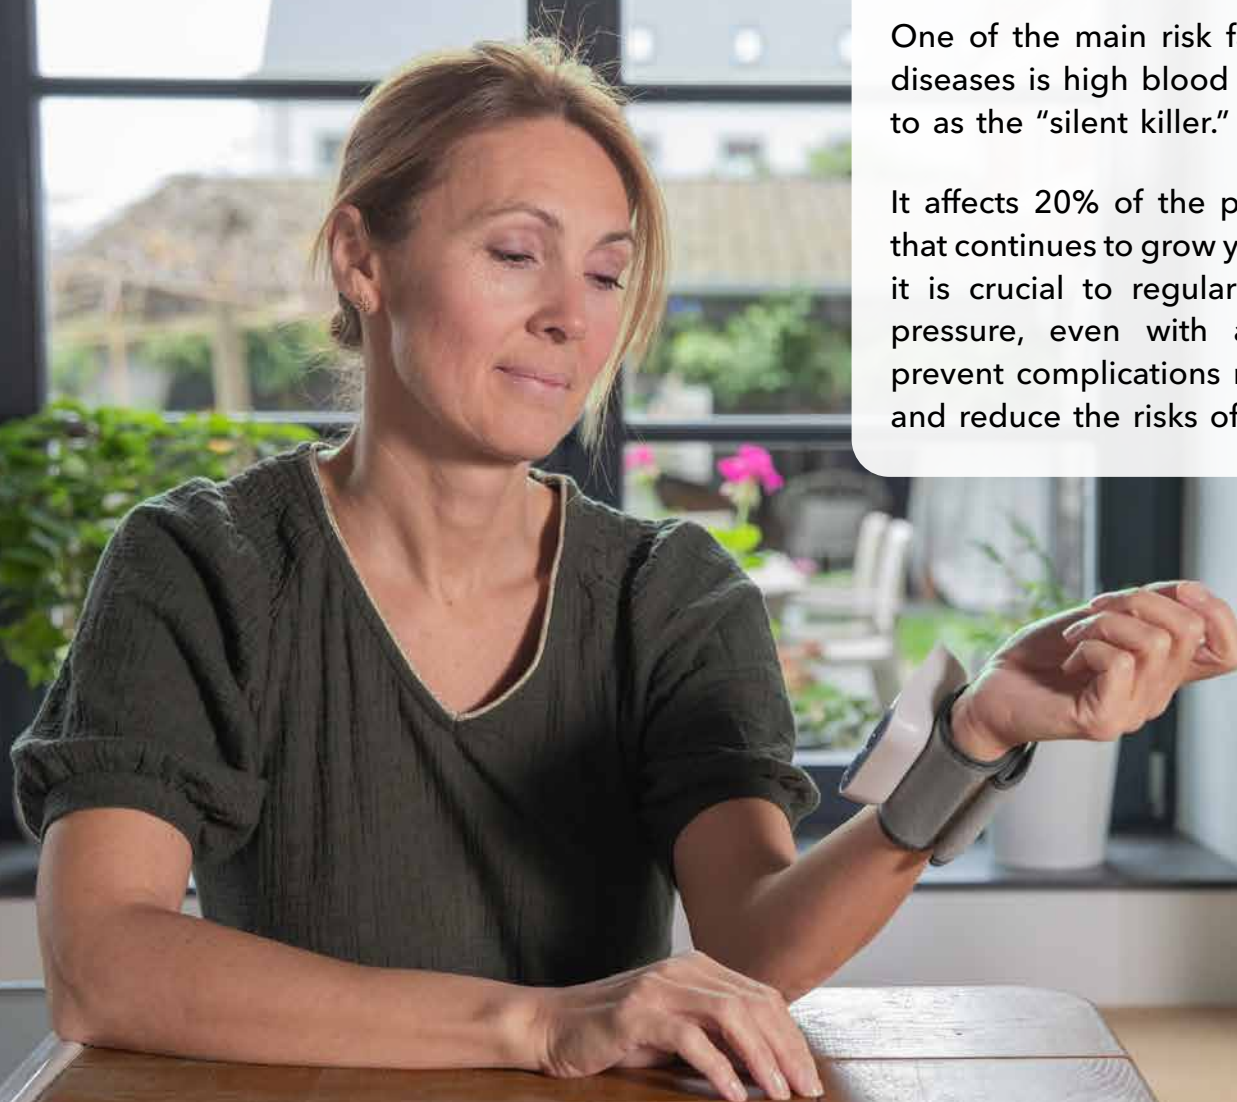

In Europe, they cause more than 10,000 deaths per day and affect men more frequently than women.

Hypertension and the importance of using a home blood pressure monitor

One of the main risk factors for cardiovascular diseases is high blood pressure, often referred to as the "silent killer."

It affects 20% of the population, a percentage that continues to grow year after year. Therefore, it is crucial to regularly monitor your blood pressure, even with a healthy lifestyle, to prevent complications related to hypertension and reduce the risks of cardiovascular diseases.

The WBPM-200 makes monitoring your blood pressure simple, quick, and accessible.

Designed for home use, it displays your results according to World Health Organization standards, providing reliable and reassuring evaluations. With its large HD LCD screen, data is clear and easy to read. Additionally, its extended memory allows two users to store up to 199 readings each, ideal for accurate and personalised daily tracking.

Why choose the WBPM-200 by Lanaform ?

The WBPM-200 is the clear choice for caring for your cardiovascular health. This blood pressure monitor detects cardiac arrhythmias, an essential feature for identifying irregularities that may require medical attention. Additionally, it automatically calculates the average of the last three readings for even more precise analysis. Easy to use with its one-button operation, it combines practicality and advanced technology. With this model, you equip yourself with a reliable and efficient tool for your health.

Détection de l'arythmie cardiaque

Average of the last three readings

WBPM-200

WRIST BLOOD PRESSURE MONITOR

REF : LA090208 • EAN CODE :5410984120666

Characteristics

- 2 users
- 2 x 199 stored readings
- Cardiac arrhythmia detection
- WHO classification
- Average of the last three readings
- Single general adjustment button
- Automatic shut-off after 20 seconds of inactivity
- Low battery indicator
- 2 AAA 1.5V batteries included
- Wrist circumference: 13.5 - 19.5 cm

Master carton dimensions
45 × 37 × 41 cm

Colour box dimensions
6,8 x 10 x 8,5 cm

Colour box weight
160 g

Master carton weight
16,5 kg

Colour Boxes / Master Carton
80 pcs (4 x 20 pcs)

Tension
3V
