## ELEVATE YOUR DAILY BEAUTY ROUTINE

The **LumiCharge LED makeup mirror** by **Lanaform** turns every beauty moment into an experience that is both elegant and functional. Designed to meet the demands of modern makeup, it combines contemporary design with smart technology to deliver **precision, comfort, and convenience** day after day.

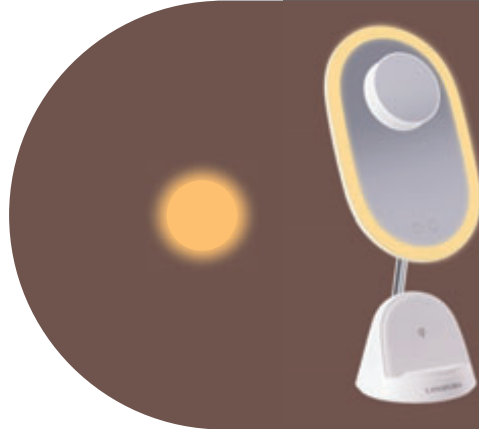

## THREE LIGHT TONES FOR FLAWLESS MAKEUP ANYWHERE

LumiCharge features **three light tones** – **warm**, **cool**, and **natural** – designed to faithfully reproduce the various lighting environments you encounter every day. The result: your makeup remains balanced in any setting.

**Cool light (5000-5300K)** similar to neon lighting (offices, stores, public bathrooms), reveals fine details with precision: skin texture, foundation coverage, and concealer blending. Ideal for a clean, well-defined result without visible lines.

**Warm light (3000-3500K)** mimics indoor evening lighting (home, restaurants, nights out). It visually warms the complexion and helps ensure your makeup doesn't appear too heavy or too orange under soft lighting.

**Natural light (4000-4300K)** is closest to daylight and serves as your main reference. It helps you choose the right foundation shade and balance contouring, blush, and highlighter for a natural, reliable finish.

## THREE ADJUSTABLE INTENSITIES FOR OPTIMAL VISUAL COMFORT

In addition to the light tones, the mirror offers **three brightness levels** to adapt the lighting power to your needs. Early morning, late evening, or in a dimly lit room, you control the brightness to avoid shadows, reduce eye strain, and achieve even, precise makeup without glare.

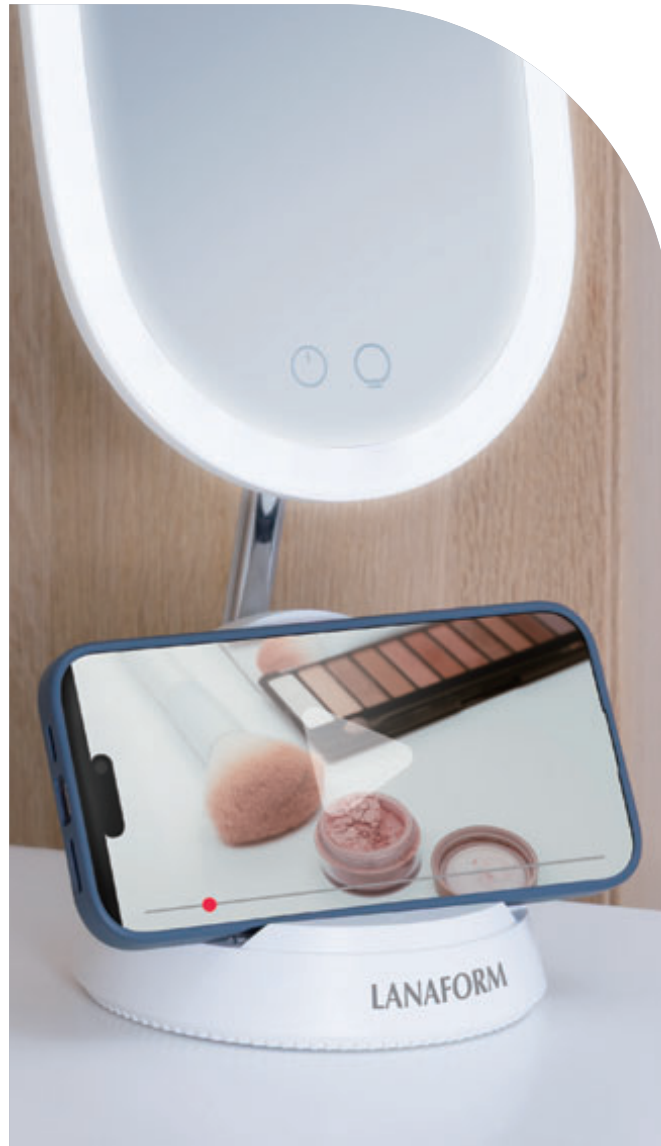

## ENHANCED PRECISION FOR THE MOST DELICATE STEPS

The magnetic, removable **X3 magnifying mirror** supports you during the most detailed steps of your beauty routine. Ideal for eye makeup, tweezing, or finishing touches, **it provides a close-up view** while remaining easy to position and remove.

## A PRACTICAL, CONNECTED, AND INSPIRING BEAUTY SPACE

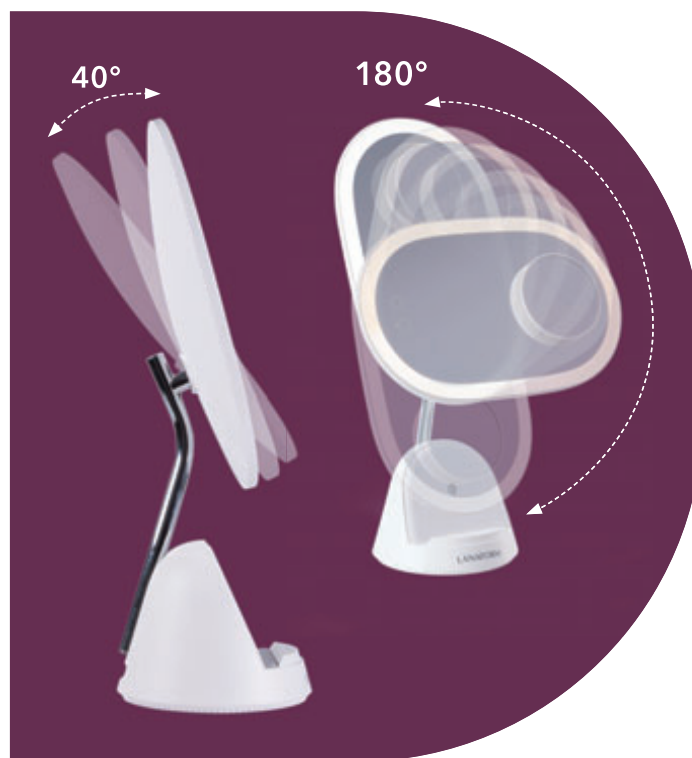

With its 10W wireless charging base, the LumiCharge charges your smartphone while you get ready, with no cables or hassle. Your phone stays perfectly positioned and within view. **Follow a beauty tutorial**, watch a video, take a call, or **listen to your favorite music** – turning your daily routine into a practical, enjoyable, and inspiring moment.

## COMFORT DESIGNED DOWN TO THE SMALLEST DETAIL

Tiltable up to **40°** and **rotatable 180°**, the mirror easily adjusts to your position. Its **large format (26 × 17 cm)** and **intuitive touch controls** ensure smooth, comfortable daily use.

## A MODERN DESIGN THAT ENHANCES YOUR SPACE

Sleek, elegant, and intuitive, the LumiCharge mirror fits beautifully into any bathroom or vanity area. More than just a mirror, it becomes **an essential daily beauty companion.**
